05/01/2020	1.0	BG	Initial release
05/11/2020	1.1	BG	Added POS Onboarding
03/08/2023	1.2	BG	Added Flat-Rate Option

Overview

Heartland's Credit Surcharge Program enables businesses to reduce their credit card processing expenses by applying a surcharge to qualifying credit card transactions. The surcharge feature is conveniently built into our terminal application to ensure a fully automated process. This feature is available to new and existing merchants.

Processing Requirements

- ▶ Merchant must be running CRE 16.10021 or later to access full surcharge functionality.
- ▶ Merchants using supported PAX devices must have the latest PAX version installed.
- ▶ Merchant must process credit cards via Heartland and have an active MID.
- ▶ All **chip-enabled credit** card transactions processed via chip, with or without PIN, are **eligible** for surcharge.
- ▶ Surcharge is applicable only to **Sale** and **Modify Sale** transaction types.
- ▶ All surcharge amounts must be shown on printed receipts.
- ▶ Merchant must display signage, at points of entry and acceptance, disclosing the use of the surcharge program.
- ▶ Merchant must have legal agreements in place with Heartland, and these must be signed and returned to the merchant's RM.

Limitations

- ▶ Fallback transactions processed (chip-enabled card transactions processed via MSR or manual entry instead of chip) are **NOT** eligible.
- ▶ Surcharge cannot be applied to non-EMV, debit, prepaid, EBT, or gift cards.
- ▶ **Pre-Auth** and **Capture** transaction types are **NOT** eligible.
- ▶ Surcharge does not allow **Partial Approval** transactions. For example, if a check total is \$10, and a surcharge is applied, the new total is \$10.35. If the card presented for payment cannot fully cover \$10.35, the transaction will be declined, citing insufficient funds.
- ▶ Surcharge is not available in all states, and should only be implemented where permitted by law. Surcharge is currently prohibited in CO, CT, KS, MA, ME, OK.

POS Onboarding:

- ▶ Dealer confirms POS version supports Surcharging.
- ▶ Dealer refers merchant to RM for Surcharging through Stronger Together program.
- ▶ RM discusses fees and waivers with merchant.
- ▶ RM submits Surcharge Onboarding documents.
- ▶ Maintenance processes Surcharge Onboarding request.
- ▶ PAX support team enables Surcharging for existing and/or new devices, and sends updated PAX download version to devices.
- ▶ Hardware sends a package with signage and Surcharge collateral for the merchant to display on the premises.
- ▶ Dealer enables receipt changes in POS to display Surcharging disclaimer. (For example, "A Surcharge of \$X.XX may be added to this transaction if you use a credit card.")
- ▶ Merchant is live with Surcharge!

For any onboarding and support-related questions please email [PAX Support](#) or contact your assigned dealership.

Setup Instructions

PAX BroadPOS Configuration

To use the Credit Surcharge feature, you must ensure that the **Others** section of **Credit Features** in BroadPOS are configured as pictured:

The screenshot displays the 'Others' section of the 'Credit Features' configuration in BroadPOS. The settings are as follows:

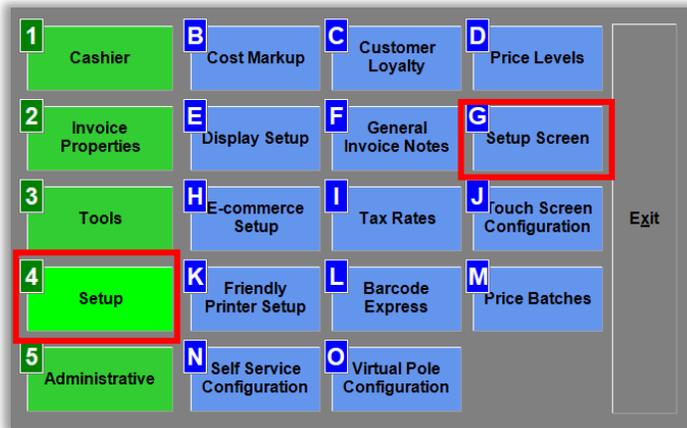

Others	
Print Disclaimer *	Yes
Print Card Holder Name *	Yes
Receipt Option *	Both Merchant/Customer Copy
Manual Entry *	Enabled
Tip *	Enabled
Pre-Dial *	Disabled
Secure Card *	Disabled
Surcharge Fee Mode *	In Percentage
Surcharge Fee Name *	Surcharge
Surcharge Flat Fee *	0.00
Surcharge in Percentage(0-9.99)% *	3.50
Print Surcharge Fee on Receipt *	Enabled

If you have any questions about this, or require assistance verifying settings, please contact [PAX Support](#) or [Product Ops Integration](#).

CRE Receipt Configuration

Although it is not required, if you are using Credit Surcharge, we strongly recommend that you configure CRE to print a disclaimer on all unpaid checks or dockets informing customers of the policy.

- 1 Select **Manager** or **Options** and enter credentials if prompted.
- 1 Select **Setup | Setup Screen**.

- 2 Go to the **Receipt** tab, check the **Print surcharge disclaimer on check** box, and click **Update**.

Additional Information

- ▶ As of CRE 16.10021, you can configure surcharge as either percentage (calculated based on the grand total of the check) or a flat rate. Previous versions of CRE support percentage only. In either case, if configured to do so, printed checks will include the surcharge disclaimer.
- ▶ When a PAX device is configured for the first time, or after any configuration changes, you must restart CRE. As it initializes, CRE will retrieve the configuration, including any designated percentage from the PAX device settings, and will automatically write it to the percentage field on the **Receipt** page of the **Setup Screen**. In such instances, the PAX configuration will override any manually entered values.
- ▶ Surcharge amounts cannot exceed 3.5% of the grand total.
- ▶ Heartland Portico supports percentage surcharge only through PAX device, and does not support flat rate surcharges.

Credit Surcharge Transaction Example

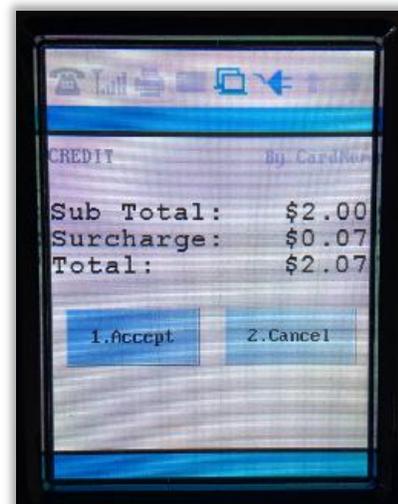

Here, we detail the steps of a transaction rung in CRE with Credit Surcharge enabled.

- 1 Add item(s) to your invoice. If appropriate, print the invoice. If configured to do so, the printed invoice will include the surcharge clause as pictured here:

The same clause will also print on any dockets.

- 2 When you are ready to pay the invoice, select **Pay**, then select **Credit**. CRE will display a message to follow instructions on pinpad.
- 3 When prompted by PAX device, insert card. If the transaction is deemed surcharge-eligible, the PAX device will indicate so as pictured on the right.
- 4 Select **Accept** to process the transaction. Otherwise, select **Cancel** to abort.

Here are examples of completed invoices reflecting surcharge:
